

Experience a True Northern Bear Hunt Vacation in Style

Dog Lake Resort is nestled on the sparkling shores of Dog Lake, surrounded by gorgeous sand beaches, pristine wilderness forest, and the Canadian Shield.

We are a 5 star wilderness vacation resort, catering to outdoor enthusiasts, couples, families and sportsmen/women.

Dog Lake Resort is the only resort on the lake.

Relax, Rejuvenate, Renew...

Dog Lake has over 500 miles of shoreline and is made up of numerous bays, islands and reefs. It is nourished by the almighty Dog River and East River systems, creating ideal structure for producing world class Walleye, Northern and Bass fishing.

The almighty Dog River runs over 40 miles with spectacular scenery and endless opportunities to land that "Big One"!

Dog Lake Resort's exclusive hunting area is 3,000 sq. km (1,800 sq. miles). We run up to 100 bait stations. All our baits are at least five miles apart which usually keeps the bears from working two or three different baits. This strategy results in trophy bears on each site. All our baits have anywhere from two to ten bears working them. Baiting is done every day and starts three to four weeks before any of our hunters arrive. Half of our baits are road accessible and half are water accessible.

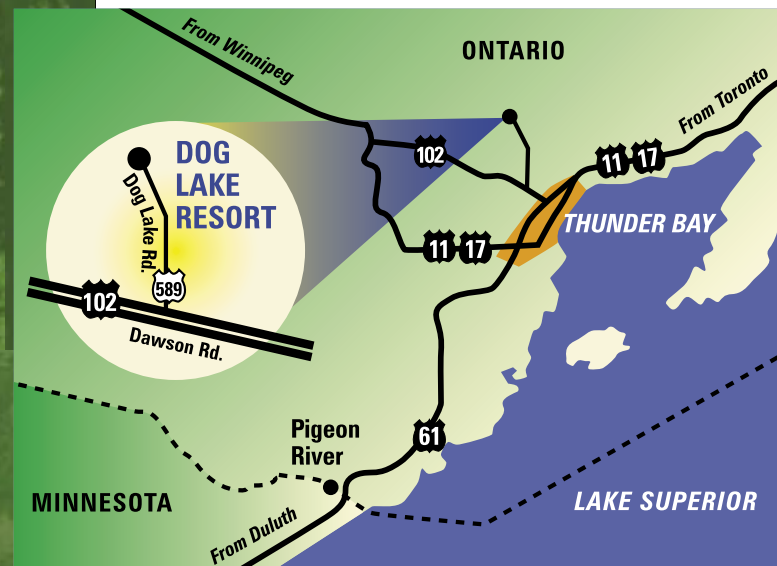

We don't use any permanent stands due to the ever-changing wind directions. We prefer portable stands so we can set up with the wind in the hunter's advantage.

*What Are You
Waiting For...*

Welcome to Dog Lake Resort

Dog Lake Resort is located just 30 miles northwest of Thunder Bay, Ontario, four hours north of Duluth, MN. We are accessible by most major airlines.

Open: May to October

 Laundromat Facilities

 Northern Lights Shows

 All hunts are run by owners John and Paul, sharing a total of 34 years of bear hunting experience.

 We limit ourselves to six hunters per week for a very personal hunt and the opportunity for each hunter to harvest a trophy.

 Dog Lake Resort boasts a Pope and Young Canadian record bear that weighed 570 pounds and the skull measured 21 12/16 inches. In 2004 we scored a Pope and Young record that weighed 580 pounds. This bear measured over 6'6" nose to tail.

 Over the past 10 years we have taken 81 Pope and Young bears, one of them previously being the Canadian record. (Fact: 50% of Pope and Young bears are taken in Ontario.)
